

#2 – Where Did God Come From? AKA: Who/What Created God?

This is a question about the Nature of God... Answered via Observation and Deep Thinking...

We see that everything *that has been created* has a beginning/cause

So... Something, *outside of nature*, had to start it all off

So – asking for the cause / beginning of an “uncaused cause” is a *category mistake*

But if we look back in time we see an infinite regress, *which is impossible*

Since this cause is outside of nature, it *does not necessarily require a beginning*
